

PC TOM NORTON CRIME REPORT FOR APRIL 2016

I am really sorry but I am not in tomorrow. Here is the police report for April, it seems to have been a bit busier than last few months but I am hoping that residents are now calling through anything that they suspect as being suspicious. I think this will be beneficial in the long run.

Firearms - Pulford – Shotgun and ammunition handed in after being either lost/found/or surrendered.

Suspicious person – Pulford Old Lane – Search made no trace – vehicle asked occupants to clean drive then became aggressive asking to buy car on drive. I attended and couldn't see any sight of vehicle in area. Pulford and Poulton searched.

Road related – Pulford – Potential cloned vehicle in Ireland which is registered to keeper in Pulford.

Suspicious vehicle – Pulford – Reports of male looking into people gardens, search made no trace for vehicle. Only partial VRM taken by caller so no further action could be taken.

Fraud – Pulford – Caller received call claiming to be bank regarding PPI claim. Referred to ActionFraud

From a policing point we have no concerns regarding child safety on the proposed park being built. I know that this was raised by residents. Another thing raised by residents that was of concern was fencing being removed from their property with the park development but this was resolved after speaking with yourself.

I would ask all residents to keep calling in any suspicious activity and if possible to obtain VRM's of any vehicles that are involved in the activity.

I will still be trying to collect as many names for a speedwatch group in the village, and if you could push this with residents I would be grateful.

I am back in on the weekend, if you need to discuss anything that gets raised please get in touch and I will call round and pay you a visit.

Regards,

Tom
